

New York State Reliability Council - Reliability Rules Subcommittee

List of Potential Reliability Rule Changes

Categories: R = Rule; D = Definition; M = Measurement; P == Procedure/Guideline; C = Compliance Elements; E = Exception
 Status: 1=In RRS for development/review 2=In RCMS for compliance elements 3=To EC for approval to post 4=Approved by EC for posting
 5=RRS incorporating comments from posting 6=To EC for final approval 7=Approved by EC 8=Removed

<u>PRR No.</u>	<u>Existing Rule</u>	<u>Potential Rule Change</u>	<u>Sponsor</u>	<u>Category</u>	<u>Status</u>	<u>RRS Action</u>
1		New "knee of the curve" P-V criterion	S. Corey	P		Completed
2		Planning responsibility (NY ISO TEI 5.3)	N/A NYISO-issue	--		Remove from list
3		Prioritization. Planning by queue-position or by group	N/A NYISO-issue	--		Remove from list
4		Definition of BPS	S. Corey	D		Received final EC approval on 8/17/04
5		Provision for Emergency Actions	A. Adamson	P		Completed
6		Reserve requirements as a function of demand elasticity	--	--		Remove from list
7		Study impact of changes to ICAP 1/10 & EOP criteria	ICAP WG	--		2001 IRM study. Remove from list
8	New	Reactive load and resource PF requirements at BPS/LSE boundary	R. Waldele	R	1	Prepare template after operating reactive study is completed
9		Normal/ extreme contingency definition	R. Clayton	R		Remove from list
10		Incremental impact criterion	S. Corey	--		Remove from list
11		CBM/TRM issues	R. Clayton	R		Remove from list
12		Disturbance reporting	L. Eng/ A. Adamson	R		Remove from list
13		Long term reserve requirements (ISO/RC Agreement, Article 4.5)	K. O'Neal	--		Remove from list
14		ICAP assumptions on generators to be included in study	ICAP WG	--		2001 IRM study. Remove from list
15		Replacement Operating Reserve	K. O'Neal (T)	--		Completed. Remove from list
16		"Quick Start" Mode for 30 Minute GTs at Gowanus & Narrows	M. Sasson (T)	--		Completed. Remove from list
17		Impact of local RR on local and state-wide reserve requirements	ICAP WG	--		2001 IRM study. Remove from list
18		Special Protection Systems Application Criteria	S. Corey	R		Remove from list
19		15 minute reserve criterion	--	--		Remove from list

List of Potential Reliability Rule Changes

Categories: R = Rule; D = Definition; M = Measurement; P == Procedure/Guideline; C = Compliance Elements; E = Exception
 Status: 1=In RRS for development/review 2=In RCMS for compliance elements 3=To EC for approval to post 4=Approved by EC for posting
 5=RRS incorporating comments from posting 6=To EC for final approval 7=Approved by EC 8=Removed

<u>PRR No.</u>	<u>Existing Rule</u>	<u>Potential Rule Change</u>	<u>Sponsor</u>	<u>Category</u>	<u>Status</u>	<u>RRS Action</u>
20		Multiple utilities on same ROW	J. Muir	P		Remove from list
21		Restoration criteria	M. Sasson	--		Assignee added
22		Protection criteria	A. Adamson	R		Received final EC approval on 8/17/01
23		Generator Unit Availability Data-Requirements	A. Adamson	--		Completed. Remove from list
24		Interconnection requirements	--	--		J. Adams to discuss with S. Corey
25		NOx Emissions. DEC criteria and impact on dispatch in NYC	M. Sasson	--		Draft policy statement tabled by EC
26		Equipment maintenance criteria	P. Davis	--		Remove from list
27		System data maintenance	--	--		Description of potential rule required
28		Ramp rate reserve criterion	P. Davis	R		Remove from list
29		Fault duty assessment planning	R. Clayton	R		Received final EC approval on 2/14/03
30		NYCA "state" performance	E. Schrom	R		Remove from list
31		Local RR #2 revision	J. Muir/E. Schrom	R		Received final EC approval on 9/14/01
32A		Resource adequacy rules	A. Adamson/ICAP	R		Received final EC approval on 8/17/01
32B		System modeling data	A. Adamson/ICAP	R		Received final EC approval on 8/17/01
33		Load forecast	A. Adamson/ICAP	R		Received final EC approval on 8/17/01
34		Off frequency/ off voltage generator no-trip nomogram	R. Clayton	R		Remove from list
35		System restoration	A. Adamson	R		Received final EC approval on 9/14/01
36		Reliability assessment	A. Adamson	R		Received final EC approval on 8/17/01
37		LSE capacity requirements	A. Adamson	R		Received final EC approval on 10/12/01
38		Resource availability requirements	A. Adamson	R		Received final EC approval on 10/12/01

<u>PRR No.</u>	<u>Existing Rule</u>	<u>Potential Rule Change</u>	<u>Sponsor</u>	<u>Category</u>	<u>Status</u>	<u>RRS Action</u>
39		Planning transmission capability-measurements	A. Adamson	M		Received final EC approval on 10/12/01
40		Operating reserve measurements	A. Adamson	M		Received final EC approval on 10/12/01
41		Operating transmission capability-measurements	A. Adamson	M		Received final EC approval on 10/12/01
42		Operation during major emergencies-measurements	A. Adamson	M		Received final EC approval on 10/12/01
43		Local reliability rule measurements	A. Adamson	M		Received final EC approval on 12/14/01
44		NYISO control center communications-measurement	A. Adamson	M		Received final EC approval on 10/12/01
45		Local RR #5 revision (Gas LI)	P. Davis	R		To be replaced by PRR #47
45A		Local RR #3 revision (Gas NYC)	A. Adamson	R		To be replaced by PRR #47
46		Operating Reserves	J. Alvarez/ P. Davis/ J. Adams	R/M		Replaced by PRRs #59 and ?
47		Loss of generator gas supply	RRS	R		Received final EC approval on 4/11/02
48		List of NYS Bulk Power System-Facilities	A. Adamson	R		Received final EC approval on 6/14/02
49		Modification to Exception No. 19	W. Yeomans/ NYISO-OC	E		Received final EC approval on 5/10/02
50		Distribution of Testing Results-Expedited	A. Giasi/ J. Alvarez	R/M		Received final EC approval on 3/14/03
51		Definition of Reactive Power Capacity	J. Muir	D		Received final EC approval on 10/11/02
52	New	Generator Governor Response	S. Corey	R/M	1	Monitor progress of NPCC-SS38 investigation of governor response & UFLS program
53		NYISO Communications Measurement-Testing and Incident Reporting	RCMS	M		Received final EC approval on 10/11/02
54		Compliance Elements for Measurement B-M4, BPS facilities List	RCMS	C		Received final EC approval on 10/11/02

List of Potential Reliability Rule Changes

Categories: R = Rule; D = Definition; M = Measurement; P == Procedure/Guideline; C = Compliance Elements; E = Exception
 Status: 1=In RRS for development/review 2=In RCMS for compliance elements 3=To EC for approval to post 4=Approved by EC for posting
 5=RRS incorporating comments from posting 6=To EC for final approval 7=Approved by EC 8=Removed

<u>PRR No.</u>	<u>Existing Rule</u>	<u>Potential Rule Change</u>	<u>Sponsor</u>	<u>Category</u>	<u>Status</u>	<u>RRS Action</u>
55		Modification of BPS-Protection-Maintenance Measurement H M2 and new measurement H M3	NYISO	M		Received final EC approval on 5/09/03
56		Modification of Exception No. 18	Con Edison	E		Received final EC approval on 5/09/03
57		Fault Current Assessment - Operating	R. Clayton	R		Received final EC approval on 9/12/03.
58		System data	R. Clayton	R		Received final EC approval on 2/14/03
59		Operating Reserves	J. Adams	R		RRS to review, upon receipt, the NYISO's document to be prepared in response to the EC's 7/10/03 request. At the request of John Adams (NYISO) this item will be dropped.
60		Modification of NYISO operating data reporting requirements as specified by Measurements D-M1, D-M3, E-M2, E-M5	RCMS	M		Template withdrawn.
61		NYISO documentation reference for DMNC definition	J. Alvarez	D		Received final EC approval on 3/14/03
62		Not Dependable Capacity definition	J. Fleury	D		Received final EC approval on 5/09/03
63		New Measurement C-M11 for Rule C-R4	R. Waldele	M		Received final EC approval on 9/12/03.
64		New Measurement F-M5 for Rule F-R5	A. Adamson	M		Received final EC approval on 10/7/03.
65		Modification of Rule D-R3	R.M. Loughney	R		Received final EC approval on 11/14/03.
66		Modification of Measurement G-M1	RRS	M		Received final EC approval on 1/9/04.
67	J-R2: NYISO Communications Under Emergency Conditions	Align with current practice	RRS	R/M	7	RRS approved for submittal to EC on 10/4/2004. EC approved for posting. Comments due 12/2/04. Approved by EC on 12/10/04.

List of Potential Reliability Rule Changes

Categories: R = Rule; D = Definition; M = Measurement; P == Procedure/Guideline; C = Compliance Elements; E = Exception
 Status: 1=In RRS for development/review 2=In RCMS for compliance elements 3=To EC for approval to post 4=Approved by EC for posting
 5=RRS incorporating comments from posting 6=To EC for final approval 7=Approved by EC 8=Removed

<u>PRR No.</u>	<u>Existing Rule</u>	<u>Potential Rule Change</u>	<u>Sponsor</u>	<u>Category</u>	<u>Status</u>	<u>RRS Action</u>
68	New	Verification Testing of Dual Fueled Units	Pappas	R/M	8	RRS approved for submittal to EC for posting on 11/4/04. Remanded back to RRS on 12/10/04 for further consideration. On hold indefinitely pending a well defined need.
69	New	Disturbance monitoring (A2 related)	Adamson	R/M	6	RRS approved for submittal to EC on 10/4/2004. EC approved for posting. Comments due 12/2/04. EC returned to RRS with changes to responsible compliance entity. Changes incorporated and RRS approved to submit to EC for posting on 1/6/05. Placed on hold pending compliance discussion at EC. Modifications made and conditionally approved by RRS on 3/3 for submittal to EC for approval to post. Approved by EC for posting on 3/11/05. Comments due 5/23/05. Comments received from NYISO. Comments resolved at 6/2/05 RRS meeting. Sent to RCMS for compliance elements. EC approved for reposting 6/10/05. No comments received. RRS approved to send to EC for approval on 8/4/05
70	B-R3: Stability Assessment	Modification (A2 related)	RRS	R	7	RRS approved for submittal to EC on 10/4/2004. EC approved for posting. Comments due 12/2/04. Approved by EC on 12/10/04.
71	B-Tables A & B: Design & Extreme Contingencies	Modification (A2 related)	RRS	N/A	7	RRS approved for submittal to EC on 10/4/2004. EC approved for posting. Comments due 12/2/04. Approved by EC on 12/10/04.

72	New	Extreme system conditions assessment (A2 related)	Adamson	R/M	7	RRS approved for submittal to EC for approval to post on 3/3/05. Approved by EC for posting on 3/11/05. Comments due 5/23/05. No comments received. RRS approved to send send to EC for final approval on 6/2/05. EC final approval 6/10/05.
73	C-R1: Verification Testing of Resource Capacity	Modification	Campoli	R/M	3	Template revised to include compliance policy language. To RCMS for compliance approval 6/30/05. RRS approved to send to EC for approval to post on 8/4/05
74	C-M9 & C-M11: System Data Requirements	Modification	E. Schrom	M	1	Template revised to include compliance policy language. To RCMS for compliance approval 6/30/05. As of 8/4 changes are being made to the measurements.
75	A-R1: Statewide Installed Reserve Requirement	Modification (A2 related)	ICS	R	7	RRS approved for submittal to EC on 10/4/2004. EC approved for posting. Comments due 12/2/04. Approved by EC on 12/10/04.
76	G-R1: Emergency Restoration Procedures. G-R2: Blackstart Resources. G-R3: Restoration Training & Simulation Programs	Align with current practice & NYISO blackout recommendations	Adamson & Campoli	R	3	Template revised to include compliance policy language. To RCMS & NYISO for compliance approval 6/30/05. RRS approved to send to EC for approval to post on 8/4/05.
77	New	Voltage sensitive load testing	Ed Schrom	M	7	RRS approved to submit to EC for approval to post 1/6/05. EC approved for posting. No comments were received. RRS approved to submit to EC for final approval on 4/7/05. EC approved.
78	F-M2: Operation During Major Emergencies	Reporting of Major Emergencies	RCMS	M	3	RCMS is preparing template. RRS approved to send to EC for approval to post on 8/4/05.
