

RELIABILITY RULES SUBCOMMITTEE (“RRS”)

WORK SCOPE

Purpose

The Reliability Rules Subcommittee (“RRS”) manages the review, development, and modification of the NYSRC Reliability Rules to maintain or enhance the reliability of the NYS Bulk Power System. Reliability is monitored in accordance with the NYSRC and NYISO/NYSRC Agreements, NYSRC Policy 1, *Procedure for Reviewing, Modifying, and Disseminating NYSRC Reliability Rules*, and other processes and procedures established by the NYSRC Executive Committee. RRS is an open subcommittee whose meetings are open to all interested parties who wish to attend. Meetings are publicly posted on the NYSRC website.

Responsibilities

1. Recommend to the NYSRC Executive Committee processes and procedures, including Policy 1 revisions, for reviewing, developing, and modifying the NYSRC Rules.
2. Consider requests by the Executive Committee for development of new Reliability Rules or modifications of existing Reliability Rules, and recommend to the Executive Committee whether such requests should be accepted or denied.
3. For those Reliability Rule change requests approved by the Executive Committee, recommend to the NYSRC Executive Committee Reliability Rule additions or modifications. The process of developing new reliability rules and modifying existing rules, when the change is intended to enhance reliability, should consider the economic and environmental implications of the proposed rule change.
4. When requested by the Executive Committee, review and comment on requests for exceptions to the Reliability Rules.
5. Recommend to the NYSRC Executive Committee revisions to the NYSRC Reliability Rules Manual when appropriate.
6. Conduct self-assessments of the NYSRC Rules to ensure consistency with NERC and NPCC standards and criteria.
7. Participate in NPCC, NERC, or other related open processes for developing and approving new reliability standards or modifications of existing standards. Review and comment on proposed standards, when appropriate. Address issues associated with the potential impact of proposed NPCC, NERC, or other standards on New York Control Area reliability.
8. Maintain a data base for the tracking of new and revised NERC and NPCC standards and criteria.
9. Review Reliability Rule disputes and recommend potential solutions to the NYSRC

Executive Committee.

10. Prepare and submit status reports requested by the NYSRC Executive Committee. Also prepare, on request, reports for the NYSRC Executive Committee to disseminate to FERC and the PSC.

11. Review system operations trending information collected by the Reliability Compliance Monitoring Subcommittee (RCMS) when requested by the Executive Committee or RCMS.

12. Develop interpretations of the Reliability Rules when requested by the Executive Committee.

Reporting

The RRS reports to the NYSRC Executive Committee.

RRS Membership

The RRS includes representatives from the NYSRC members and PSC and NYISO participants designated by the NYSRC Executive Committee.

Approval Process

The RRS will seek to achieve a consensus on its actions and recommendations. However, if necessary, majority and minority reports will be submitted to the NYSRC Executive Committee..

Technical Analyses

As required, the RRS will request the NYISO, or retain consulting services, to perform technical analyses to meet its responsibilities.

Liaison with NPCC

The RRS may nominate a NYSRC representative, with NYSRC Executive Committee approval, on the NPCC Regional Standards Committee, which is responsible for reviewing, commenting on, and development of NPCC and NERC Standards.

Initially Approved by the NYSRC Executive Committee - July 21, 1999

Revision 1 - Approved by the NYSRC Executive Committee - September 18, 2000

Revision 2 - Approved by the NYSRC Executive Committee - September 13, 2002

Revision 3 - Approved by the NYSRC Executive Committee - May 13, 2011
