

Comparison of SCRs with 15 calls per year versus 5 calls per month

The NYISO had an action item to return to ICS with an analysis of the comparison on a monthly basis of the number of days the MARS model would call on SCRs. The table below shows that there is a de minimis impact on the calls each month. The data does confirm that with the five calls per month limitation, there could be MARS draws in either July or August that would exceed the limitation.

Based on this analysis and stakeholder discussion at NYSRC ICS meetings, the NYISO recommends ICS model SCRs using a 15 day per year call limit instead of the current 5 day per month call limit.

	15 Calls/Year	5 Calls/month	Delta
JAN	0.01	0.01	0.00
FEB	0.58	0.58	0.00
MAR	0.60	0.60	0.00
APR	0.10	0.10	0.00
MAY	0.02	0.02	0.00
JUN	1.16	1.16	0.00
JUL	2.78	2.77	0.00
AUG	3.09	3.09	0.00
SEP	0.37	0.37	0.00
OCT	0.21	0.21	0.00
NOV	0.04	0.04	0.00
DEC	0.00	0.00	0.00
	8.96	8.94	0.02
