2017 ICS TASKS

For 2018 IRM Study

Task No.	Task	Document Needed	Scope Due	Document Due	Task Lead
1	Modeling of NYISO Locality Sales	White Paper	n/a	4/5	Greg Drake
	Develop proposed model.				
2	Emergency Assistance Limit Analysis	White Paper	Comp.	4/5	John Adams
	Develop EA limit based on excess reserves in neighboring control areas.				
3	Review NYISO Alternative LCR methodology	ICS Memo	n/a	TBD	Zachary Stines, Mariann Wilczek
	Review and comment on alternative LCR methodology proposed by NYISO. ICS comments to include review of compliance with the reliability rules.				
4	Sensitivity to assess the impact on the IRM of a high penetration of renewable resources.	Scope	3/1	n/a	Al Adamson
	Develop a scope for a sensitivity study for determining the IRM for a hypothetical addition of a significant amount of generic renewable capacity to the 2018 -19 base case.				
5	Review of A/B/C/J/K and 5018 lines for topology	Presentation	n/a	4/5	Greg Drake
	Prepare a scope and timeline for reviewing the PJM to SENY topology model.
