

February 1<sup>st</sup>, 2023 ICS Meeting #273

Prepared for: February 10th, 2023 EC Meeting  
Prepared by: Brian Shanahan, ICS Chairperson

4.1.1 ICS Milestone Schedule for 2024/25 IRM – For EC Approval

ICS is submitting an updated Milestone Schedule for 2023 activities for Executive Committee approval. The changes from previous:

- Replace specific meeting dates with the Month of the activity.
- Separated ICS meeting activities from EC approval items for clarity.
- Removed specific reference to the current year throughout document actions as the Milestone header is entitled 2024/25 IRM. No need to duplicate throughout the document.
- Added/clarified existing events to ensure proper sequencing (e.g. Review actions done prior to Final Report being issued).

4.1.2 2023 ICS White Paper & Model Improvement Topics

Consistent with the NYISO Resource Adequacy Model Improvement initiative, the ICS has settled on the following White Papers to be completed this year. Scope documents are attached,

|   |               |
|---|---------------|
| Emergency Operating Procedures in Resource Adequacy Model | August 2023   |
| Representing Gas Constraints in IRM Study                 | December 2023 |
