## Executive Committee and RRS Members,

The Executive Committee has approved a process for providing your opinions to me on balloting positions for NYSRC voting on upcoming NERC standard revisions. The following ballots will be voted on shortly:

- MODIFICATIONS TO CIP-003-8 - *Your balloting position is due to me on April 26.*
- MODIFICATIONS TO PRC-024-3 – *Your balloting position is due to me on May 29.*

These ballots are described

at: <https://www.nerc.com/pa/Stand/Pages/Balloting.aspx> . Also, attached for your information, is an updated NERC Standard Tracking Summary which will be on the upcoming RRS and EC meeting agendas, and includes these proposed standard revisions.

Please include any comments or reasons as to your voting position, particularly if your position is to vote NO on the ballot – the reason for selecting a NO recommendation must be included if I am to include your position for deciding how NYSRC should vote.

Al Adamson
