NYSRC Reliability Rule and Requirement Reference -- Draft 9/21/20

Rule Section	Rule	Requirement	Applicability	Requirement Summary	Compliance Review Frequency
Α	A.1 Establishing NYCA	1		LOLE Criterion	
Resource Adequacy	IRM Requirements	2	NYSRC	IRM Study Requirements	Annually
	A.2 Establishing Load	1	NYISO	LSE ICAP study requirements	Annually
	Serving Entity Installed	2	LSEs	LSE ICAP procurement requirements	Annually
	Capacity Requirements	3	NYISO	LSE ICAP deficiency notification	As required
	A.3 Review of Resource	1	NYISO	Next year resource adequacy assessments	Annually
	Adequacy	2	NYISO	Long term resource adequacy assessments	Every 2 years
		3	NYISO	Intervening year resource adequacy updates	Intervening yea
В	B.1 Transmission System	1	NYISO	Transmission planning criteria	Every 3 years
Transmission	Planning Performance	2	NYISO	Extreme contingency assessment criteria	Every 3 years
Planning	Requirements	3	NYISO	Extreme conditions assessment criteria	Every 3 years
•	·	4	NYISO	Fault duty assessment criteria	Every 3 years
	B.2 Transmission System Planning Assessments	1	NYISO	Transmission system planning assessments	Annually
	B.3 List of NYS Bulk Power	1	NYISO	Procedure for preparing BPS facilities list	Every 3 years
	System Facilities	2	NYISO	Maintaining BPS facilities list	Every 3 years
		3	NYISO	Submission of BPS facility list to NYSRC	As requested
	B.4 Transmission Interconnection Special Studies	1	NYISO	Procedure for determining impacts of dynamically active technologies	Every 3 years
C	C.1 Establishing Operating	1	NYISO	Establishing operating transfer limits	Every 3 years
Transmission Operations	Transfer Capabilities	2	NYISO	Procedures for implementing actions when transfer limits are exceeded	Every 3 years
	C.2 Post-Contingency Operation	1	NYISO	Procedures requiring actions when generation readjustment is not adequate	Every 3 years
		2	NYISO	Voltage reduction and load shedding limitations	Every 3 years

	C.3 Outage Coordination	1	NYISO	Scheduled outage coordination	Every 3 years
		2	NYISO	Adjacent system notification of outages	Every 3 years
		3	NYISO	List of facilities that shall be secured	Every 3 years
		4	NYISO	Adjustments to be secured to accommodate	Every 3 years
				protection group outages	
		5	NYISO	Procedures for transmission outage coordination	Every 3 years
		6	NYISO	TO procedures for transmission outage	Every 3 years
				coordination	
	C.4 Operation Prior to	1	NYISO	Procedures for operation during Impending	Every 3 years
	and during Extreme			severe weather	
	Weather Conditions and	2	NYISO	Procedures for operation during severe solar	Every 3 years
	Solar Magnetic			magnetic disturbances	
	Disturbances	3	NYISO	Procedures for operating restrictions during	Every 3 years
				severe weather conditions and solar magnetic	
				disturbances	
	C.5 Fault Current	1	NYISO	Pre-seasonal fault duty assessments	Annually
	Assessment	2	Equip. Own.	Equipment owner assessment review	Annually
		3	NYISO	Mitigation plans	Annually
	C.6 Applications of the	1	NYISO	Establishing Applications of the NYSRC Rules	Every 3 years
	NYSRC Reliability Rules	2	NYISO	Procedures for establishing Applications	Every 3 years
	C.7 Exceptions to the	1	NYISO	Actions for granting exceptions to the rules	Every 3 years
	NYSRC Reliability Rules				
	C.8 Real-Time Operations	1	NYISO	Monthly operating reports	Monthly
	of the BPS				
D	D.1 Mitigation of Major	1	NYISO	Procedures for applying relief measures when	Every 3 years
Emergency	Emergencies			transmission is overloaded	
Operations		2	NYISO	Corrective actions when STE rating is exceeded	Every 3 years
		3	NYISO	Voltage control coordination actions	Every 3 years
		4	NYISO	Post contingency voltage limit violation actions	Every 3 years
		5	NYISO	Operating reserve deficiency actions	Every 3 years
		6	NYISO	Stability limit violation actions	Every 3 years
		7	NYISO	Low frequency actions	Every 3 years
		8	NYISO	Procedures ensuring R1-R7 actions	Every 3 years
		9	NYISO	Major Emergency reporting requirements	As required
		10	NYISO	Voltage reduction testing requirements	Annually

E	E. 1 Establishing the	1	NYISO	Scheduled outage coordination for meeting	Every 3 year
Operating	Minimum Level of			operating reserve requirements	
Reserves	Operating Reserves	2	NYISO	Minimum operating reserve requirements	Every 3 year
		3	NYISO	10-minute operating reserve requirements	Every 3 year
		4	NYISO	30-minute operating reserve requirement	Every 3 year
		5	NYISO	Inclusion of interruptible sales in operating reserve	Every 3 year
		6	NYISO	Restoration of 10-minute operating reserve	Every 3 year
		7	NYISO	Procedures for ensuring adequacy of operating reserves	Every 3 year
F	F.1 NYCA System	1	NYISO	Requirements for developing NYISO SRP plan	Every 3 year
System	Restoration Plan (SRP)	2	TOs	Requirements for establishing TO SRPs	Every 3 year
Restoration		3	GOs	Black start testing requirements	Annually
G	G.1 NYC Operations	1	Con Edison	Designing certain areas in Con Edison system for	Every 3 year
Local Area	d.1 Wic Operations			2 nd contingency	
Operation		2	Con Edison	Basis for NYC unit commitment requirements	Every 3 year
		3	Con Edison	NYC 10-minute reserve requirements	Every 3 year
		4	Con Edison	Thunderstorm 1 st contingency requirement	Every 3 year
		5	NYISO	Con Edison requirements for operating its system per R1, R2, and R4	Every 3 year
		6	NYISO	Con Edison requirements for meeting R3.	Every 3 year
		7	Con Edison	Con Edison procedures for meeting R1 though R4 and NYISO requirements	Every 3 year
	G.2 Loss of Gas Supply - NYC	1	NYISO	Con Edison requirements for complying with loss of gas supply criteria	Every 3 year
		2	Con Edison	Procedures for complying with loss of gas supply criteria	Every 3 year
		3	NYISO	List of duel fuel units in MOB program	Every 3 year
		4	NYISO	Test requirement procedure for MOB units	Every 3 year
		5	GOs	MOB unit testing procedures	Every 3 year
		6	GOs	MOB unit test results	Annually
	G.3 Loss of Gas Supply -	1	NYISO	Procedures for implementing LI loss of gas supply	Every 3 year
	Long Island			requirements	

		2	LIPA	Procedures for operating LIPA system in accordance with loss of gas supply requirements	Every 3 years
	G.4 System Restoration	1	NYISO	Procedures and actions for inclusion of eligible	Every 3 years
	form Eligible Black Start			black start resources for Con Edison	
	Resources	2	Con Edison	Procedures for identification of eligible black start resources	Every 3 years
Н	H.1 Control Center	1	NYISO	Procedures for supporting communications	Every 3 years
Control Center	Communications	_	NIISO	between NYISO and MPs	Every 5 years
Communications	Communications	2	NYISO	Procedures for supporting communications between NYISO and MPs under emergency conditions	Every 3 years
		3	NYISO	Performance communication interface data reports	As requested
		4	NYISO	Report to NYSRC for loss of critical systems	As required
	I.1 Verification Testing of	1	NYISO	Procedures for installed capacity testing	Every 3 years
Modeling and	Resource Capacity	2	NYISO	Procedures for reactive power testing	Every 3 years
Data	,	3	GOs	Procedures for reporting capacity test results	Every 3 years
		4	GOs	Procedures for reporting reactive power test results	Every 3 years
	I.2 Generating Unit	1	NYISO	Procedures for reporting generation outage data	Every 3 years
	Availability and Special	2	GOs	Outage data reporting	Every 3 years
	Case Resource	3	NYISO	Outage statistics report to NYSRC	Annually
	Performance	4.1-4.3	NYISO	SCR performance reporting requirements	Every 3 years
		4.4	NYISO	SCR performance report to the NYSRC	Annually
		5	RIPs	SCR data reporting	Every 3 years
	1.3 Load Forecasting	1	NYISO	Load data reporting requirements	Every 3 years
		2	NYISO	Load forecast report to the NYSRC	Annually
	I.4 Transmission data	1	NYISO	Procedures for preparing transmission study data bases	Every 3 years
		2	NYISO	Transmission study data base updating	Every 3 years
		3	TOs	Transmission data reporting	Annually
