## Request to Develop or Modify Reliability Rules and Requirements (NYSRC Policy No. 1) Submit request to <a href="https://example.com.via">herb@policyadvisorsllc.com</a> via the NYSRC site <a href="https://www.nysrc.org">www.nysrc.org</a>

| •   | to nero@policyaovisorsiic.com via the NYSRC site www.nysrc.org                             | 7               |
|---|--|-----------------|
| Item                                      | Information  | Formatted Table |
| 1. PRR No. & Title of Reliability         | PRR-144### C.3: Outage Coordination - Requirement 4 and Requirement 6                      |                 |
| Rule or Requirement change                |  |                 |
|   |  |                 |
| 2. Rule Change Requester                  |  |                 |
| Information                               |  |                 |
| Name                                      | James Grant  |                 |
| Organization                              | NYISO  |                 |
| 3. New rule or revision to existing rule? | Existing   | -               |
|   |  |                 |
| 4. Need for rule change, including        | The intent of existing R4 is for scheduled maintenance outage of facilities to be          |                 |
| advantages and disadvantages              | completed expeditiously in the event of an emergency. However, the NYISO cannot            |                 |
|   | attest as to whether or not a facility owner has acted expeditiously in restoring an       |                 |
|   | outage. The intent of existing R4 will be incorporated into the procedures stipulated in   |                 |
|   | existing R6 of this Rule, so that facility owners are aware of their obligation to restore |                 |
|   | maintenance outages expeditiously in the case of an emergency. Existing R4 will be         |                 |
|   |  |                 |
|   | retired, and subsequent Requirements will be renumbered.                                   |                 |
|   |  |                 |
| 5. Related NYSRC rules                    | C.3 Requirements R2, R3, and R5.   |                 |
|   |  |                 |
| 6. Section A – Reliability Rule           |  |                 |
| Elements                                  |  |                 |
| Reliability Rule                          | C.3: Outage Coordination   |                 |
| 2. Associated NERC & NPCC                 | NERC: IRO-014, IRO-017   |                 |
| Standards and Criteria                    | NPCC: Directory 1  |                 |
| 3. Applicability                          | NYISO  |                 |
| 7. Section B – Requirements               |  |                 |
| 7. Jestion D Requirements                 |  | _               |

| Requirements                                      | R4. Maintenance of facilities which impact the reliability of the NYS Bulk              |  |
|---|---|--|
|   | Power System shall be expedited.  |  |
|   |   |  |
|   | <b>R5R4</b> . Appropriate adjustments shall be made to <i>NYCA</i> operations to        |  |
|   | accommodate the impact of <i>protection group</i> outages.                              |  |
|   | 2222addta in impact a protection group addaged.   |  |
|   | R5R4.1. For typical periods of forced or maintenance outage of a                        |  |
|   | protection group, it can be assumed, unless there are indication                        |  |
|   |   |  |
|   | to the contrary, that the remaining <i>protection</i> will function as                  |  |
|   | designed.   |  |
|   | R5R4.2 If the <i>protection group</i> will be out of service for an                     |  |
|   | extended period of time (as defined in NPCC criteria), additional                       |  |
|   | adjustments to operations may be appropriate considering other                          |  |
|   | system conditions and the consequences of possible failure of a                         |  |
|   | remaining protection group.   |  |
|   |   |  |
|   | <b>R6R5</b> . The <i>NYISO</i> shall maintain procedures and systems which ensure       |  |
|   | that outages of transmission facilities are coordinated in such a manner                |  |
|   | to ensure <i>reliability</i> . The procedures shall include a requirement that          |  |
|   | Transmission Owners expedite, to the extent practicable, maintenance                    |  |
|   |   |  |
|   | of facilities which impact the reliability of the power system. The NYISO               |  |
|   | must notify the NYSRC of any changes to these procedures and systems.                   |  |
|   |   |  |
|   |   |  |
|   |   |  |
|   |   |  |
|   |   |  |
| 8. Section C – Compliance                         |   |  |
| Elements  |   |  |
| Measures     Levels of Non-Compliance             | M1 No change from existing  |  |
| Compliance Monitoring                             | No change from existing   |  |
| Process (See Policy 4):                           |   |  |
| 3.1 Compliance                                    | No change from existing   |  |
| Monitoring Responsibility 3.2 Reporting Frequency | No change from existing   |  |
| 3.3 Compliance Reporting                          | No change from existing   |  |
| Requirements                                      |   |  |
| 9. Implementation Plan                            | The NYISO shall revise the Outage Scheduling Manual to explicitly include the intent in |  |
| 5. Implementation Flan                            | the new Requirement 6 that obligates facility owners to expedite maintenance outage     |  |
|   | restoration in the event of an emergency.   |  |
|   |   |  |
| 10. Comments                                      |   |  |
|   |   |  |
| 11. Date Rule Adopted                             |   |  |
| 12. PRR Revision Dates                            |   |  |
