

New York State Reliability Council
Reliability Compliance Monitoring Subcommittee (RCMS)
 Updated per meeting #225

(Bold date denotes Action Item has been completed)

No.	Action Items	Responsible Individual(s)	Status or Due Date
225-1	NYISO will research what assessments are made at the NYISO after the fact by comparing the load forecast with the actual load experienced towards providing feedback and improvement into future forecasting process.	Mr. Grant	November 29, 2018
225-2	RCMS requested the removal of the third paragraph of draft letter and recognizes that the issue addressed in the third paragraph regarding pre-certification should be addressed as a possible policy change to Policy 4. This revision will be taking back to NYISO staff for review	Mr. Sharp	November 29, 2018
225-3	Mr. Adamson mentioned that the NYISO presentation to ICS with the information from the second page R1.1 spoke to the NYISO base case IRM but it should be clear that the LCR should be using the final IRM from ICS in December. Will be taking this back to NYISO staff for review	Mr. Sharp	November 29, 2018
