Raj,

TOP101 remains in effect without any changes. Con Ed is also aware of this. As for the data request, I will access it later today and send it to you first thing in the morning if that is ok.

Regards,

Dwayne,

I am currently collecting the test procedures for combined cycle units that are part of the MOB program, which have the ability to automatically swap from natural gas to a liquid fuel (NYSRG Rule G.2: R5.).

Would you please confirm for me the procedure TOP 101 (Combustion Turbine Generator Fuel Oil Transfer), rev 2 (1/1/2017) is still in effect, or provide me with the updated version of the procedure?

Also, could you please confirm for me that Con Edison has been similarly informed about the status of test procedures?

Thank you,

Raj Dontireddy | [LinkedIn](#)
